GAINESVILLE, FLORIDA, THURSDAY, AUGUST 30, 1906

TEN CENTS A WEEK

COMER IS NAMED GOVERNOR OF ALABAMA

Majority Estimated From Six
to Eight Thousand.

JOHNSON, BANKHEAD AND KNOX

In the Lead for Alternate U. S. Senator—Unofficial Returns Indicate a Choice of Johnston and Bankhead. Weakley Named for Chief Justice.

Montgomery, Ala., Aug. 29.—The Democrats of Alabama Monday elected state officers by a primary, and also voted for two candidates for U. S. senator.

Owing to the great age of the present senators from Alabama, who had no opposition to re-election, two candidates for alternates were voted for.

These alternates will be appointed by the governor or elected by the legislature in case of the death or disability of the present incumbents.

For governor, Hon. B. B. Comer, of Birmingham, was nominated over Dr. R. M. Cunningham, of Easley, by a majority estimated at from 5,000 to 8,000.

For lieutenant governor, H. B. Gray, of Birmingham, and D. J. Meador, of Myrtlewood, are in the lead, the returns a hand being insufficient to name the winner.

For U. S. senator, John T. Morgan and Edmund W. Pettus, had no opposition. For alternate U. S. senator, Joseph W. Johnston, John H. Bankhead and John A. Knox, are in the lead. Unofficial returns from 27 counties indicate that former Governor Joseph F. Johnston and Congressman J. H. Bankhead, have been nominated.

Q. W. Underwood, of the fifth congressional district, was renominated and W. B. Craig, of Selma, was nominated to succeed Sydney J. Bowie as congressman for the fourth district.

The issue in the governorship contest was freight rates, Comer making his race on a platform which demanded that the railroads grant to Alabama shippers the same rates as are enforced by the Georgia railroad commission in that state.

Every return indicates that Judge Weakley has been nominated for chief justice of the supreme court, which is a surprise to even his most intimate friends.

The race seems close between W. W. Brandon, Horace Hood, of Montgomery, and C. B. Smith, for auditor.

Frank Julian seems to have a majority for secretary of state from the few places heard from.

There are seven candidates for associate railroad commissioners, two to be elected, and it is impossible to pick the winners.

There are two associate justices of the supreme court to be elected, and five candidates with no indication of the leaders.

These candidates are A. Bilbo, T. W. Coleman, J. R. Dowdell, T. C. McClelland and W. L. Parks.

Woman Found Murdered.

New York, Aug. 29.—A woman by the name of Mrs. Annie Moore, was found murdered early Tuesday in a furnished room at Sixty-second street. She had been horribly ripped and slashed. One gash had severed the jugular vein in the left side of the throat, and had almost severed the windpipe, the breast was badly slashed and a deep knife wound had ripped open the body, disemboweling it. No weapon was found, and there were few blood marks around the room. James Moore, who had posed as the woman's husband, was held by the police on suspicion. It was he who notified the police of the murder.

Fire Destroys Church.

Lincoln, Neb., Aug. 29.—Fire Tuesday destroyed the First, Christian church at Fourteenth and K streets. The loss is estimated to be \$70,000. The Catholics purchased the building a year ago and were changing it into a handsome cathedral. Father Shinn thinks enemies of the church set fire to the structure. Four firemen narrowly escaped death by the falling of the walls.

TEXAS COTTON SHOWS DAMAGE.

Needs Less Rain and More Sunshine. Shows 8.1 Better Condition.

Dallas, Tex., Aug. 29.—The Galveston-Dallas News published reports from 503 correspondents in cotton-producing districts of Texas, Oklahoma, and Indian Territory, written on Aug. 24. They show that the crop has deteriorated, and is further threatened by reason of excessive rains; intermittent showers and depredations of boll weevils and boll worms in a very large proportion of the territory covered.

Texas conditions as compared with the same date in 1905 is 8.1 per cent better, Indian Territory 4.5 per cent better, and Oklahoma 12 per cent better. Insect damage in the territories has been very much less than in Texas. More than two-thirds of the Texas counties report excessive rains, rank growth of plant, shading of fruit and some instances rotting, arrested development, and shedding either because of weather or insects. About one-fourth of the cotton counties report favorable conditions.

Picking is general only in the southern portion of the state, and is delayed by rains. Labor for cotton picking, as well as for practically all other industries, is scarce. Many correspondents say that if the rains would stop and sunshine weather would prevail, the crop in their sections would still be good. Upon the other hand, a very large number of correspondents declare that there will be no top crop and some that the middle crop is now doomed.

Reward of \$200 for Assailant.

Atlanta, Aug. 29.—Governor Terrell has offered a reward of \$200 for the arrest, with proof to convict, of the unknown negro man who committed an assault upon Mrs. Georgia F. Hem-bree, near Battle Hill, about two weeks ago. The community was greatly stirred up over this assault, and every effort was made to catch the negro, so far without success. The governor also offered a reward of \$100 for the arrest of Alex McLeod, a negro wanted in Turner county for the murder of his stepdaughter on Aug. 12 last, and a reward of \$100 for Jno. Chandler, who is wanted in Coweta county for the murder of J. G. Bishop on Dec. 25, 1897.

Jury's Verdict Causes Laughter.

Savannah, Ga., Aug. 29.—Judge Norwood, of the city court, discharged the jury Monday morning in the William Johnson gambling case, for bringing in a verdict of "not guilty," when in his mind the evidence was conclusive of guilt. This jury will in the future be disqualified for jury service in the city court. Judge Norwood said that there was no doubt as to Johnson's guilt of gambling, and it would never be stopped with such verdicts. The evidence was conclusive and not circumstantial, and when the verdict was read in the court room, the spectators forgot their duty to the dignity of the court and laughed.

Will Stand Murder Trial.

Jonesboro, Ga., Aug. 29.—Clayton's superior court convened here Monday morning, Judge L. S. Roan presiding. The case of Leon T. Milner, who is charged with the murder of B. H. Dorsey, brother of Judge R. T. Dorsey, of Atlanta, will be taken up Wednesday morning. Colonel Charlie D. Hill, of Atlanta, and Colonel O. J. Coogler, of Jonesboro, will assist the solicitor general in the prosecution of the case. The defense will be represented by Brown & Brown, of McDonough, and Colonel W. L. Watterson, of Jonesboro. Much interest is being manifested in the trial.

Illinois Mob May Use Rope.

Chicago, Ill., Aug. 29.—The 5-year-old daughter of Edward Albright, a farmer near Bertrand, Mo., was assaulted by Charles Goforth, a farm hand employed by her father. Goforth was captured in the Mississippi swamps by farmers headed by Albright, who seriously hurt Goforth and tried to kill him; Goforth was rescued by deputies with bloodhounds brought from Charleston, Mo. Goforth was taken to Charleston. The little girl is in a precarious condition. A report has reached here that a mob is going from Bertrand to Charleston to attempt to lynch Goforth.

NO MORE PASSES; YOU PAY OR WALK

Can't Hard Cash Now Gets Transportation.

EVERYONE MUST PAY THE CASH

Exchange of Advertising for Railway Travel is a Thing of the Past, as New Interstate Commerce Law is Now in Effect.

Atlanta, Aug. 29.—With the last stroke of 12 o'clock midnight Monday night, Georgia, together with the rest of the country, began upon a new era so far as passes and free transportation is concerned, and the death knell of special privileges was sounded.

This great change was occasioned by the new rate bill of the interstate commerce commission, which went into effect at midnight Monday night.

Conflicting as many of the provisions of the new bill may appear, according to the testimony of many railroad experts, there is no circumventing the fact that passes and free transportation is made unlawful under the provisions of the new bill. Incidentally, the fact that both the user of a pass as well as the official or railroad issuing the pass are subject to heavy penalty under the new law, makes it practically certain that there will be a certain and sudden stop in the request for passes.

From now on, the railroads will have to pay in actual cash for whatever advertising they may insert in the newspapers while those connected with newspapers from editor-in-chief to the newest cub reporter will pay for their transportation just as the balance of the public. The new law gives particular attention to this matter and states that no passes, tickets or free transportation may be granted to newspapers to be paid for in advertising. Up to this time, many newspapers have kept accounts with the railroads and have paid for their transportation in advertising. Settlements were made monthly and if the railroads had used more advertising space than they had granted transportation, the difference was paid in cash. On the other hand if more transportation had been granted by the railroads than the sum offsetting their advertising bill, this difference was settled by the newspapers in cash.

Now all this is changed. Both the railroads and the newspapers will have to pay for what they get in cold cash, exactly in the same way as the rest of the traveling public.

That the railroads are very much disturbed by these new conditions is evident. This sudden taking away of the pass privilege means that from now on all business must be transacted on a regular business foundation. It means that where judges of the United States courts have been issued annual passes for themselves and trip passes for the members of their families, letters must be written—or have been—calling in this privilege and apologizing on the ground that the railroads were in no way responsible for the new bill, but on the contrary, were bitterly opposed to its passage from the start.

It was also stated that these letters calling in free passes from editors, judges, municipal, state and federal officials carried with them sincere regrets that this new law necessitated the withdrawal of these passes from those who had proved their friendship to the railroads in many ways for many years.

It was also reported that these letters called attention to the fact that under the new law the penalty was the same for the person using the free pass in violation of the new act as it was for the official or railroad issuing the pass.

Fear of Insanity Leads to Suicide.

Muskegon, Mich., Aug. 29.—Being haunted by the fear that she would become hopelessly insane, Mrs. H. D. Hatch, of Hart, poured kerosene on her clothing late Monday afternoon, applied a match and died a few hours later from burns received.

NECRO'S WIFE "RUSHED" BY 400.

Announcement of Her Identity Gives Coast Society Severe Jolt.

San Francisco, Cal., Aug. 29.—Mrs. A. M. Curtis, who came from Washington with credentials from the war department, to aid in the relief work following the April disaster, and who was entertained by the most exclusive families in San Francisco society, is now transpired, is the wife of a negro physician in the national capital.

Mrs. Curtis is of Indian blood, according to statements of her friends. It was not known that she was the wife of a negro, and exclusive society is even yet slow to believe it.

While here, Mrs. Curtis did much work among the negroes and seemed to be on speaking acquaintance with all the negroes in town.

When Mrs. Curtis left the city she was suffering from injuries received in an automobile accident and went to Washington to recuperate. She is to return soon and society is very much puzzled. What her reception will be, society doesn't know.

Mrs. J. F. Merrill, vice president of the Red Cross, spoke very highly of the services rendered by Mrs. Curtis during her stay here.

Condemned Woman Respited.

Kansas City, Aug. 29.—Governor Folk, at Jefferson City, has granted a reprieve until October 26 to Mrs. Agnes Myers, now in jail at Liberty awaiting execution for the murder of her husband. Governor Folk granted the respite so that the woman's attorneys might have time in which to perfect an appeal to the United States supreme court, the preliminary action on which was taken recently. Governor Folk also granted a respite to Frank Holtman to Oct. 26, which is the same day for the execution of Mrs. Myers. Governor Folk left at noon Monday for New York to attend the Bryan reception.

35 Companies Pay Insurance.

San Francisco, Aug. 29.—Thirty-five insurance companies out of the 120 involved in the San Francisco disaster have been paid, in the aggregate \$55,103,833.12, according to their office record to date. Some of the larger concerns have made heavy payments. The Royal of Liverpool, is credited with \$3,804,000.41; the Hartford, with \$3,013,795; the New York Underwriters, with \$3,496,787; the Aetna, of Hartford, is down for \$3,120,592, and the Liverpool and London and Globe for \$2,721,258.

Jealous Man Kills Woman.

New York, Aug. 29.—Martin Winterstein, 39 years old, a fireman on the steamship Colon, shot and killed Mrs. Annie Larsen, 29 years old, in her apartments Tuesday morning. Mrs. Sallie Pruhn, 29 years old, a cousin of Mrs. Larsen was shot and seriously wounded by the fireman. Winterstein was arrested after a hard struggle. He was infatuated with Mrs. Larsen, and said he was jealous of the woman.

Rescued from Burning Steamer.

Detroit, Mich., Aug. 29.—Twenty-one persons, including the captain's wife and two little children, were rescued early Tuesday from the burning vessel, Charles A. Eddy, by the Detroit and Cleveland line steamer, City of Mackinaw, off Port Sanilac in Lake Huron. All of them escaped uninjured, and were brought to this city on the City of Mackinaw. The Eddy was destroyed.

Atlanta Man Is Arrested.

Pierre, S. D., Aug. 29.—A man known to his companions as Joseph Fitzgerald, was shot down after a quarrel in a saloon Monday afternoon by a man giving the name of George Dabney of Atlanta. The men were employed in the yards of the North-western railroad, and were of a party drinking together. Dabney was arrested.

Two Killed by Lightning.

Roswell, N. H., Aug. 29.—Two men found sitting upright in a wagon dead and four mules dead in harness near Keosau, have been identified as Victor and Thomas Simpson, brothers, who were on farm near Lida. They were killed by lightning when driving from Keosau to their farm.

PALMA'S CHILDREN JOIN GUBAN ARMY

Enlistments Have Already Had
a Good Effect.

ENLISTMENT OF VOLUNTEERS

Has Been Suspended Until President

Palma's Offer of Amnesty to the Insurgents Can Be Determined—Confidence Felt at Palace.

Havana, Aug. 29.—The enlistment of volunteers by the government has been suspended when President Palma's offer of amnesty to the insurgents can be determined. At the palace confidence is felt that the great body of rebels, who have been carried away with the idea that they were to have a conspicuous part in the overthrow of the Palma administration will seize the present opportunity to return to lawful pursuits rather than jeopardize their liberty by further supporting what the government characterizes as a hopeless case.

Senator Dolz, the moderate leader, following his conference with President Palma, declared early Tuesday that with the exception of Pinar Guera, all the insurgent leaders were prepared to disband their men if assured of immunity. Guera is said to be reckoned with. If seemingly reliable reports can be credited, he has with him a formidable body of men, but his recent inactivity leaves the impression that he desires rather to make a display of force than to do any serious fighting. His earlier promises to capture Pinar del Rio and then march on Havana, followed by a period of inactivity, has apparently injured his prestige among the insurgents and sympathizers, who had expected him to make a bold dash at the government forces.

President Palma's instructions of Monday have made a good impression, especially among the business men, whose interests are seriously threatened by the disturbed condition of affairs. President Palma's son has joined the army, and his daughter has become an army nurse. These enlistments have also had a good effect.

Fearing Assassination, Kills Self.

Atlanta, Aug. 29.—S. F. Kline, a laundry clerk who came here from Savannah, committed suicide early Tuesday morning at his boarding house, 140 South Pryor street, by cutting his throat with a razor. Kline's roommates found him lying upon the floor, his throat gashed, and a bloody razor in his hand. It was said that Kline had been drinking for the past two or three weeks, and was in a highly nervous state. He had expressed the fear the night before that he was the victim of assassins. Kline had been living in Atlanta five weeks. For the past two weeks, his friends say, he had been on a spree. He had lost his position at Guthman's laundry, where he worked as a marker and sorter, but had been promised a job with the Troy laundry, which he was to have accepted Tuesday.

Court Apparently Divided.

St. Petersburg, Aug. 29.—The court at Peterhoff apparently is divided as to how to meet the campaign of the terrorists. Premier Stolypin and his cabinet, however, have taken a stand against repression on a scale which would drive the whole people into revolt. The premier's views are reflected by the Russia today, which declares the obligation must not be frightened into abandoning the reform program. It is only necessary, the paper asserts, to draw a line between loyal opposition and those whom by word and act, would destroy the government.

Civil Marriage Formalities Restored.

Madrid, Aug. 29.—A royal decree published Tuesday restores the civil marriage formalities and suppresses the obligation on the parties desiring to get married to declare their religion. This is directly opposed to the papal bull of 1881 and it is expected it will arouse a political struggle, which will continue until the

SOUTH GAINESVILLE WANTS MORE LIGHT

Citizens of that Section Will Soon
Present Petition to Council.

THE STREETS ARE DARK

And On Nights When There is No
Moon Pedestrians Find It Difficult to
Make Their Way Without Stumbling
Over Obstacles.

The citizens of South Gainesville are apparently not content with the lighting service they are now receiving, and at the next meeting of the City Council will probably petition the council for more light.

"We are getting tired of running around and falling over obstructions in the dark," remarked one citizen, in referring to the inadequate system. "We have been 'roped in' to the city limits, we are paying as much taxes as anybody else in proportion, and we are going to insist on a proportionate advantage when it comes to lights and water."

The section of South Gainesville sought to be relieved is said to be very dark on nights when there is no moon, and those residents in the immediate vicinity have determined, if possible, to secure the necessary illumination.

A PROMINENT VISITOR.

Hon. T. F. McGourin, United States
Marshal, Spent Wednesday Here.

Among the prominent visitors to this city Wednesday was Hon. T. F. McGourin of Pensacola, United States Marshal of the Northern District of Florida, who came here to consult Hon. Henry S. Chubb, chairman of the Florida Republican State Central Committee, upon some matters of vital importance to the Republican organization.

Mr. McGourin is not only one of the most prominent Republicans in the State, but a most refined gentleman as well. Dignified and commanding in appearance, yet possessed of a most affable and generous disposition, he has made friends everywhere, not only among the people of his own party, but Democrats as well.

Mr. McGourin expressed himself as being well pleased with the city: "Gainesville is growing more rapidly in proportion to population than any other I have visited in the State," he said, "and I note that the class of buildings being erected are of that class any city in the land could be proud of." He was especially impressed with the magnificence of the new buildings of the University of Florida, which he declared would be a credit to any State in the Union. "Gainesville is the very place for the University, and I can see it now," he continued. "I have always labored under the impression, and now I am absolutely convinced that no mistake was made in voting the site of the University of Florida in Gainesville."

Mr. McGourin was introduced to a number of prominent citizens by Col. Chubb. He left in the afternoon on his return homeward.

COL. CHUBB HOME.

Says the North Carolina Country is
Filled With Visitors Just Now.

Hon. Henry S. Chubb, receiver of the United States land office, has returned from Tryon, North Carolina, where he was called a few days ago on account of the illness of his daughter, Miss Kathleen, who has been suffering with malarial fever.

Mrs. Chubb and family, who reside at Winter Park, have been spending the summer at Tryon, and, with the exception of the misfortune just related, have been enjoying unusually fine health. Col. Chubb left the patient greatly improved, however, which will be gratifying information to his numerous friends throughout Florida.

Col. Chubb stated that the mountain air of North Carolina is delightful at this season. The country is literally thronged with people from every section of the country, and he was delighted to meet several of his old Florida friends there.

Mrs. M. A. Easterlin Leases Her Right
to Fred Rhinehardt.

Mrs. M. A. Easterlin, who for the past two years has been conducting the Tremont Hotel, 209 West Orange street, has leased her privileges to Fred Rhinehardt of Wade, who has already taken charge of the place.

Mrs. Easterlin has conducted a good place and enjoyed a fine success in the business, but decided to retire from active management in the house. Mr. Rhinehardt, her successor, is well known throughout Alachua county, and will no doubt enjoy a good business, especially from the people of the West End, where he was engaged in the mercantile business for many years.

American Bar Association.

St. Paul, Aug. 29.—American Bar Association members which will hold its annual meeting here beginning on Wednesday morning, are arriving in goodly numbers. Among the prominent speakers is Judge Alton B. Parker. Judge Parker was at the headquarters of the association Tuesday morning. He was willing to tell stories, but no word of politics would he utter.

Frost Visits Iowa.

Des Moines, Iowa, Aug. 29.—Frost was reported in Iowa lowlands Monday for the first time this season, although it is not believed that the Iowa corn crop will suffer damage because of it. The mercury dropped as low as 40 degrees at Cedar Rapids and Creston, the coldest August day for 15 years. Charles City reported light frosts, although the temperature was 42.

How to Avoid Appendicitis.

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Mob Chases White Man.

Augusta, Ga., Aug. 29.—A special Sheriff Raburn, of Aiken county, has been notified that a mob is being formed near Graniteville, where Mrs. Bryant says she was criminally attacked by a white man named Barton Saturday, with the determination to take Barton from the Aiken jail. Sheriff Raburn has taken every precaution.

Nervous?

There are many causes of nervousness, but poor blood heads the list. The doctors call it anemia. The blood lacks red corpuscles. At your first opportunity, consult your doctor about taking Ayer's Sarsaparilla. Ask him if he has anything better for weakness, debility, nervousness. If he has, take it. If not, take Ayer's Sarsaparilla. Get well, that's what you are after.

MEN AND WOMEN FIGHT.

Two Will Die as the Result of the
Affray.

Macon, Ga., Aug. 29.—John Newsome, a railway employe, and Joseph Curtis, a cotton mill operative, are dying at the city hospital from injuries received in a bridge-row fight Monday afternoon, in which a half dozen men and as many women were participants.

Newsome is shot through both his lungs, and Curtis' head is horribly battered by blows dealt with an ax in the hands of a powerful antagonist.

"Bunk" Curtis, a brother to one of the injured men, and the only party using a revolver, after which he fled across the Macon, Dublin and Savannah railway bridge, and into the forest beyond, and was not captured at a late hour Monday night.

The row began in the alley upon which is situated one of the worst joints in the city, and after it had continued some time, parties who saw it said Newsome hit one of the Curtis brothers with a bottle, precipitating a battle, which caused nearly a dozen arrests and death to hover about at least two. They had been drinking and hanging around the house until differences arose involving some of the women.

It took cool work by the police and several deputies to curb the excitement which prevailed.

Charges were preferred against five inmates of the house.

Camping In New York City.

If you will take up any good map of New York city and follow along the East river with your finger until it joins the sound, you will find that from there on the western shore of the sound is dotted with small islands. As to their number and extent the map itself, if it is a good one, may prove deceptive, for many of the smaller dots are in actuality merely barren rocks of but a few yards area, and not a few of them are almost awash at high tide. The exploration of this half dozen miles of shore either by launch or row-boat is a fascinating occupation, and you will find before you reach the city limits some decidedly primitive natural conditions, as well as a score or so of islands, small, but well above water, and with scrubby undergrowth among the rocks and here and there an occasional tree or two. Some of them belong to the city, some to individuals, while others, and some of the best, are of doubtful ownership and title. One or two are permanently occupied, but the others are in almost every case accessible to orderly camping parties, and many of those near the shore are so used every year.—Country Life In America.

Seals Learning to Swim.

Young seals do not know how to swim. They have to become gradually accustomed to the water either by entering it to paddle about by themselves or by being carried into it in their mothers' jaws. They have great fear of the waves that break into foam, and as soon as they see one approaching take to flight in terror and do not turn round until they have ascended to a very high place above the sea.

WORK PROGRESSES ON GAINESVILLE & GULF

Two Large Forces Engaged in Grading, and Another to Begin.

MANAGEMENT MEANS BUSINESS

Within a Reasonable Length of Time, Everything Being Favorable, Through Trains Will be Operated Between Jacksonville and Tampa.

Superintendent J. B. Cutler and Chief Engineer E. B. Polk of the Gainesville and Gulf railway have returned from Crystal River and other points south on the extension of the road, where they had been for the past few days.

Superintendent Cutler states that work of grading on the extension is progressing fairly well, but that progress has been delayed to some extent by excessive and continued rains, which have been the hardest known in that section for many years.

Two large forces are engaged grading now, and another will be put to work on September 5. One "gang" is working from Fairfield south, while the other is coming this way from Crystal River, and the forces will join between the two points. The third force, which is being recruited, will comprise a hundred or more men, and will work southward from Crystal River. It is understood that this contract provides for more than fifty miles of grading.

The present management of the Gainesville and Gulf means business, and within a reasonable length of time it is expected that trains will be running solid between Jacksonville and Tampa, via Gainesville.

There are good things in store which the Gainesville and Gulf proposes and will accomplish, but for the present these cannot be mentioned.

Hays Will Soon be Home.

A letter received by a friend from Rev. Thos. P. Hay of the First Presbyterian Church, who, with his family, is spending a vacation in Asheville, N. C., bears information that they expect to return to their home in a few days, and that Mr. Hay will resume his duties on Sunday, September 9.

The Hay family have spent a most delightful summer, and are greatly benefited physically. Friends will be glad to welcome them home again.

Cured Hay Fever and Summer Cold

A. J. Nussbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

FLORIDA AT SEA GIRT.

Florida Rifle Team Left Tuesday to Compete in National Shoot.

Lieutenant J. W. Blanding of the Gainesville Guards, who has been honored for the third time in being selected as a member of the crack team of the Florida State Troops to compete in the National shoot, writes from St. Augustine under date of Monday, 27th inst., and requests that the address of his paper be changed to Sea Girt, N. J., where the contest will be held.

The team comprises seventeen members. In concluding his letter, Lieutenant Blanding says: "We expect to leave here tomorrow morning on a special car for Sea Girt, and will probably be there for ten days or two weeks. Kindest regards to all my friends at home."

The Florida Rifle Team won high honors at Sea Girt last year, and it is expected naturally that they will do the same thing at this shoot, as the team is virtually the same as last year.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Appointments on the Bryan reception committee seem to have been had for the asking.

A Missouri farmer has been arrested for cheating a lawyer. Another verification of the old saying that the worm will turn.

A contemporary says the man who found sermons in stones and "good in everything" would soon get sick as food inspector these days.

Not satisfied with his other numerous duties, President Roosevelt is undertaking to manage the Congressional campaign for the Republicans.

If Hearst and Hughes are the Democratic and Republican nominees for Governor of New York the corporations will have to take to the woods.

There is at least one thing to be admired about Governor Broward—he stands up on the same platform that he got in on—drainage of the Everglades.

Senator Frank Adams says he would not have the Governorship of Florida if it were offered him on a silver platter. How about United States Senator, Frank?

A Tennessee paper tells of an ice man who was shot by mistake for a robber. The Jacksonville ice consumers would like for the Tennessee paper to explain how to tell the difference.

Congressman Burleson, who has been renominated in Texas, claims to have spent only 85 cents in the campaign. Evidently political announcements are cheap in the Lone Star State.

As between Jerome and Hearst it is no wonder that Tammany is found on the side of the latter for governor of New York. Jerome is a political ingrate, with considerable of the racial mixed with it, while Hearst practices what he preaches in politics.

It is a conscious fact that the men whose names have been linked with big Chicago properties and enterprises are dead and their millions now in the hands of their wives and daughters go unrepresented. Both P. D. Armour and P. D. Armour, Jr., are dead but their wives are alive. Marshall Field, who owned more property than any other merchant in the world, is dead. So is Marshall Field, Jr., but their wives are alive. Pullman and his sons are dead, but their wives are alive. Potter Palmer, another of Chicago's rich men, is dead, but Mrs. Palmer remains. Mr. Cooper of the great department store of Siegel-Cooper is dead, so is A. M. Rothschild. E. J. Lehman, proprietor of the "Fair," is dead, but his wife is pushing the business harder than ever. Charles Netcher of the Boston Store is dead, but his wife is rapidly enlarging the business. Both Carson and Scott of the famous firm of Carson, Pirie, Scott & Co., are dead.

What may be expected from the free alcohol bill may be gathered from the result of a like measure in Germany. There the amount of alcohol used for industrial purposes amounted in 1904 to 101,000,000 gallons. Of this 80,000,000 gallons was extracted from potatoes, 18,000,000 from grain and 8,000,000 from molasses, or the by-products of beet sugar. The cost in Germany was about 15 cents a gallon. It is mixed with 15 to 30 per cent of benzole so that it cannot be used for drinking purposes. In this country alcohol can be made much cheaper than in Germany. It can be manufactured out of refuse corn, refuse potatoes, grain and other things that now are practically wasted. It can be used as a substitute for gasoline, wood, coal or almost any other fuel, and at so low a cost as must soon render its use general even for house-warming.

Under the provisions of the Statehood bill, the Osage Indians, said to be the richest in the world, will be obliged to take their allotment in severalty, and the Government will give them their money which it has held, paying them the interest for half a century or more. There are 1,800 of them. They have to their credit in the treasury a little more than \$8,000,000. In addition they own 1,500,000 acres of the richest tracts of land in the United States. It embraces rich agricultural lands and is rich in oil and minerals. At the distribution each Osage will get about \$5,000 in money and 800 acres of land. Six months after settlement the Indians won't have a dollar, and sharks will have the money and most of the land.

Now and then, says The Tampa Times, we see notes about survivors of Andersonville prison during the war. They all seem to be men whose constitutions and nervous systems were ruined by their inopportune experience there. But as they have survived that experience by more than forty years it might be made by very little twisting to appear that the prison was something of a health resort. It is not in good taste to speak jocularly of such an incident as Andersonville, but it may do no harm to state that about as many of its inmates are still alive, in proportion to numbers, as of the soldiers on either side who never resided within its precincts.

B. B. Comer will be the next governor of Alabama, having been nominated in the recent primary, and Ex-Governor Johnston and Congressman Bankhead will succeed Senators Morgan and Pettus in case of their death before the expiration of their terms.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. J. CHENNEY & Co., Toledo, O. Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

The St. Augustine Record says frogs are among the worst enemies of mosquitoes. If that be true, how do you account for the prevalence of the insects to such a great extent at Baldwin? There are more frogs to the square inch at Baldwin than any place in the world.

John McDaniel and W. S. Osborn will soon start a new paper at Live Oak. Mr. Osborn is well known in Gainesville, where he was for several years connected with the Hill Printing Company. He is one of the best job printers in the country.

The gubernatorial boom of T. A. Jennings of Pensacola seems to grow each succeeding day. Hon. Frank Adams is his latest advocate. There may be another Jennings in the race, however, before the list is closed.

It has been suggested, as an improvement on former Expositions, that the Jamestown people have the "pike," better known as the midway, in circular shape, so that there will be no end to the fun.

As yet the Republicans have not claimed credit for the San Francisco earthquake. They claim credit, however, for the bountiful grain crops, as well as the fine weather which produced them.

You can't expect a woman to get much enjoyment out of the church service if there are at least three women on her row who are wearing more expensive hats than her own.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SKIN DISEASES

FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Pustules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding.

Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.

Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women who are "worn-out," "run-down" or debilitated, especially for women who work in store, office or schoolroom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription has proven a priceless benefit because of its health-restoring and strength-giving powers.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic diseases of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by reason of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

Will Visit Asiatic Station.

Washington, Aug. 29.—It is expected that very soon after the review of the Atlantic fleet by President Roosevelt, the squadron of cruisers under Admiral Brownson will visit the Asiatic station by way of Europe and the Suez canal. These cruisers are the West Virginia, Colorado, Maryland and Pennsylvania, and the largest and fastest of the warships, although not as heavily armed or with as much armor as the best battleships. The fleet will leave New York in time to reach Gibraltar by Sept. 17. Admiral Brownson's squadron will not visit any northern countries while en route.

Summer Diarrhoea in Children.

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, pastor of the First M. E. Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by all druggists.

Fires Insurance Suit.

New York, Aug. 29.—Thomas Watkins filed Monday a summons and complaint in the county clerk's office, Brooklyn. He has instituted a suit for \$38,500 against the Transatlantic Fire Insurance company of Hamburg, Germany. He alleges the company failed to make good certain losses caused by the earthquake fire in San Francisco. He is assignee of several of the assured people who sustained losses.

Santiago, Chile, Aug. 29.—The American minister, Mr. Hix, the foreign minister and members of the reception committee started Tuesday for Lota, by the land route, to receive Secretary Root, who is due to arrive there Wednesday. The party will return to Santiago by the same way.

In Self Defense.

Major Hamm, editor and manager of The Constitutionalist, Eminence, Ky., when he was severely attacked four years ago by piles, bought a box of Bucklen's Arnica Salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. See at all drug stores.

Effect of Meat Investigation.

Kansas City, Aug. 29.—Ferdinand S. Berger, of New York, president of the Schwartzchild & Salzberger company, packers, who is visiting in Kansas City, said Monday night: "The investigation of the packing houses and the adverse criticism that followed, has had an adverse effect on business, but it will be very short lived. As soon as the new inspection law goes into effect, the demand for meat will become larger than ever. American meats, under the new inspection law, will be the best and choicest on the market, and all the old foreign trade and more, too, will come back to us."

The End of the World

Of troubles that robbed E. H. Wolfe of Bear Grove, Ia., of all usefulness, came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I would never have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50c. Guaranteed at all drug stores.

These ships were advertised at several Asiatic ports, the cost of advertising being \$28. The ships are the Albay, Manileno and Mindanao. They have been stripped of everything movable and are simply hulks.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

ELECTRIC LINE ACROSS STATE.

Will Run East and West from Atlanta, About 170 Miles.

Atlanta, Aug. 29.—An electric railroad to extend across the state is provided for in a charter which has been granted by Secretary of State Philip Cook.

This new line is to be known as the Atlanta and Carolina railway. The original project provided for a line from Atlanta to Anderson, S. C., but, according to the charter granted Monday, this has been changed.

It is proposed under this charter to build 170 miles of electric lines, through Fulton, DeKalb, Rockdale, Gwinnett and Jackson counties to the east, and through Fulton, Campbell, Coweta, Meriwether, Troup and Heard counties to the west of Atlanta. To the east of Atlanta the line will take in Lithonia, Conyers, Lawrenceville, Commerce and other well known points, and to the west of College Park, Fairburn, Palmetto, Newnan, Morelands, Grantville, Hogansville, West Point, LaGrange and Franklin. Franklin is located in Heard county, which at present has no railroad at all.

The capital stock to begin with will be \$50,000, with the privilege of increasing to any amount desired. The principal office of the company will be in Atlanta.

The incorporators are M. T. Edgerison, M. Mason and W. E. Woods, of Fulton; J. R. Hesch, Henry Braselton and L. F. Sell, of Jackson; A. J. Almand, E. J. Kimmel, Jr. and T. J. Flake, of DeKalb county, and R. W. Tucker, of Rockdale.

"Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by all druggists.

Pickle Plant Destroyed by Fire.

St. Paul, Aug. 29.—Fire which had started in the warehouse of the Heinz Pickle company on the west side early Tuesday morning, destroyed the plant of the company, the large factory of the American Can company and a 3-story frame tenement building. The total loss is estimated at \$355,000, of which \$300,000 is on the American Can company's plant. Shortly after the firemen had gotten the tenants, 30 in number, out of the frame building, the walls of the can factory fell, crushing the tenement house to the ground.

Killed by Electric Shock.

Newark, N. J., Aug. 29.—William Hoch, a saloon keeper, was killed by electricity in his barroom by a shock from an incandescent lamp while preparing to close his place Monday night. Hoch mounted a chair to reach the switch of an electric light over the bar. As his hand came into contact with the button he doubled up, pitched forward across the bar and rolled to the floor dead.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

May Teach Esperanto.

Washington, Aug. 29.—Shall naval officers be taught Esperanto, the universal language? The naval academy board is considering a letter of William Baff, of Worcester, Mass., who says that with a daily lesson of one hour for a period of five months, the midshipmen at Annapolis would have a complete knowledge of Esperanto, and would be able to read, write and speak it fluently. Mr. Baff suggests this to the board only as a supplementary language.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Want Direct Import.

Copenhagen, Aug. 29.—Telegrams from Reykjavik, Iceland, intimate that the Icelanders are planning to bring about the direct importation of American goods, instead of by way of British ports as heretofore. The imports from America, especially petroleum, wheat, sugar, and tobacco, have largely increased during the recent years, and it is thought the trade could be considerably improved with cheaper, direct transportations.

GREEN TURTLES EXPENSIVE.

Where They Are Caught and How They Are Brought North.

"The flesh of the green turtle often brings \$50 a pound," said an oyster dealer. "This rich meat comes to us from the coral reefs of the West Indies."

"The turtles are caught in nets among the rocks. They are very carefully brought north. They are deck passengers at first, but as the weather grows cold with the ship's progress they are penned in warm rooms below—regular staterooms."

"It's a different treatment that they get, though, at the natives' hands. If a native is bringing turtles north he nails them fast to the deck by their flippers. Strange creatures that they are, they appear to suffer little under such cruel treatment."

"The calipee and calipash are respectively the flesh from the breast and the back of the green turtle, tidbits which, I have heard epicures say, are unequaled in the earth beneath the heavens above or the waters under the earth. This meat is superlatively rich, delicate and tender."

"Live green turtle fetches wholesale from a dime to a quarter a pound. What makes the meat so expensive in the end is that out of a 140 pound fish you'll only get two pounds of calipee and one of calipash."

"Several times when there has been a tight turtle market the chefs of millionaires and of certain extravagant hotels have offered me \$1 a pound for live turtles. At that rate your calipee and calipash would come to quite \$50 a pound."—New Orleans Times-Democrat.

LIGHTHOUSES.

The First of Them Was One of the World's Seven Wonders.

The first lighthouse of which there is any record in history was built by Ptolemy Philadelphus about 306 B. C. It was a tower on which wood fires were kept blazing at night. It was built on Pharos, a small island in the bay of Alexandria, and was one of the seven wonders of the world. It is an interesting fact that the modern French and Spanish names for lighthouse—the one being phare, the other faro—still preserve the memory of the island where the first attempt at seacoast illumination was located. The ruined tower in Dover castle, England, erected about A. D. 44, is claimed by some authorities to have been built for a lighthouse, upon which an enormous wood fire was kept burning.

The lighthouse on the southern end of the island of Conanicut, at the mouth of Narragansett bay, is said to be the oldest in the United States. The present structure is comparatively modern, but the first one was erected in 1750, and for nearly 100 years previous a watchtower, with a beacon fire, had existed at the same point.

The lighthouse bears the old name of Beaver Tail. The southern portion of Conanicut island is shaped something like a beaver, with its tail pointing southward, and in early times it was known by that name, the two extremities being called head and tail.

Clever Rubinstein.

The Italian tenor Marcel once made a visit to Rubinstein, during which the latter's little son came tripping eagerly into the music room and said, "This is my festa, papa, and I want a present." "Very well, my son, what shall it be?" "A waltz, papa, a new waltz all for myself, and now." "What an impatient little son it is!" exclaimed the great musician. "But of course you shall have your gift. Here it is. Listen! And for you," turning to the distinguished tenor, "I will play my 'Nero.'" "It seems incredible," says Marcel, "but then and there I witnessed and heard a most remarkable phenomenon. The maestro improvised and played a charming waltz with his left hand, giving me at the same time with his right the splendid overture."

In the Pillory.

The picturesque, but most painful, punishment known as the "pillory" has long been a thing of the past in England. A man was made to stand in a frame on a platform, probably with his head and hands fastened through holes in pieces of wood that were then padlocked to keep them firm, and thus to remain at stated periods while the crowd gaped at or even pelted him. The last time known that a man was pilloried was when Peter James Bossy was punished for perjury, June 22, 1830.—London Mail.

Unnecessary Expense.

Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases, and no family should be without it. For sale by all druggists.

AN ANCIENT TELEGRAPH.

Used by Grecian Generals in the Time of Aristotle.

Telegraphy as a means of conveying information to a distance by means of signals, etc., was used by the Grecian generals in the time of Aristotle. This early mode of telegraphing consisted of two or more earthen vessels, exactly similar in shape and size and filled with water. These vessels were each provided with faucets of exactly the same caliber, so that an equal amount of water could be discharged from each in a given time.

In these vessels several uprights were fixed, each with disks attached, on which were certain letters and sentences. When all was in readiness the party desiring to communicate with another started a signal, which was continued until it was answered by another which signified "go ahead." When that signal was given both turned the faucets, and the water commenced to escape. The water continued to flow until the sender of the message relighted his torch, when the outlet to both was instantly stopped. The receiver then read the message on the disk which was standing level with the water, and if everything had been executed with exactness it corresponded with the message which the sender desired to convey, and which of course was the one also shown on the disk standing on a level with the water in his vessel.

A Caustic Critic.

A local paper in Hungary published an account of the rendering of "King Lear" on the stage of a very small theater in the town where the paper appears. The Hungarian critic began his article in this way: "The historians of literature are still at daggers drawn as to who wrote Shakespeare's pieces—Shakespeare or Bacon. After tonight's performance of 'King Lear' there cannot be a doubt on the matter if any one will take the trouble to look into the tombs of those two famous men. The one who still lies on his back has not written 'King Lear,' at any rate, for the true author during tonight's performance must certainly have turned in his grave."

Stomach Troubles and Constipation.

No one can reasonably hope for good digestion when the bowels are constipated. Mr. Chas. Baldwin of Edwardsville, Ill., says: "I suffered from chronic constipation and stomach troubles for several years, but thanks to Chamberlain's Stomach and Liver Tablets am almost cured." Why not get a package of these tablets and get well and stay well? Price 25 cents. For sale by all druggists.

STEVENSON, Ala., June 8, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success. I am Yours truly, W. C. DANIEL.

Choise of Johnston and Bankhead

Weakley Named for Chief Justice

Montgomery, Ala., Aug. 29.—The

Democrats of Alabama have elected

state officers of a primary

also voted for two candidates for

U. S. senator.

Owing to the great age of the

present senators from Alabama, there

is no opposition to reelection, and

candidates for alternate were chosen.

These alternates will be elected

by the governor or elected by the

legislature in case of a vacancy or

disability of the present members.

For governor, Hon. B. P. Comer

of Birmingham, was nominated.

Dr. R. M. Cunningham, of Knoxville,

a majority estimated at from six

to 8,000.

For lieutenant governor, H. B.

Gray, of Birmingham, was nominated.

For chief justice, Judge J. H.

For U. S. senator, John A. Mc-

Intion, and Edmund W. Pettus, of

ation. For alternate, Joseph W.

Joseph W. Johnston, John A. Bank-

head and John A. Knox, of the

lead. Unofficial returns from the

ties indicate that former Governor

Joseph F. Johnston and Congressman

A. H. Rouse have been nominated.

O. W. Underwood, of the ninth

gressional district, was re-nomina-

and W. B. Craig, of Selma, was

ated to succeed Sydney J. Howe

as congressman for the fourth

district.

The issue in the governorship

contest was freight rates, Comer

making his race on a platform which

demanded that the railroads grant

to Alabama shippers the same rates

as are enforced by the Georgia

railroad commission in that state.

Every return indicates that Judge

Weakley has been nominated for

chief justice of the supreme court,

which is a surprise to even his

most intimate friends.

The race seems close between W.

W. Brandon, Horace Hood, of

Montgomery, and C. B. Smith, of

auditor.

Frank Julian seems to have a

majority for secretary of state

from the few places heard from.

There are seven candidates for

associate railroad commissioners,

two to be elected, and it is impos-

sible to pick the winners.

There are two associate justices

of the supreme court to be elected,

and five candidates with no indica-

tion of the leaders.

These candidates are A. B. Hill,

Woman Found Murdered.

New York, Aug. 29.—A woman by

the name of Mrs. Annie Moore, was

found murdered early Tuesday in a

furnished room at Sixty-second

street. She had been horribly

ripped and slashed. One gash had

severed the jugular vein in the left

side of the throat, and had almost

severed the windpipe, the breast

was badly slashed and a deep

knife wound had ripped open the

body, dismembering it. No

weapon was found, and there were

few blood marks around the

room. James Moore, who had

posed as the woman's husband,

was held by the police on

suspicion. It was he who

notified the police of the murder.

Fire Destroys Church.

Lincoln, Neb., Aug. 29.—Fire

Tuesday destroyed the First

Christian church at Fourteenth

and K streets. The loss is

estimated to be \$75,000. The

Catholics purchased the building

a year ago and were changing it

into a handsome cathedral. Father

Hume thinks enemies of the

church are to be the cause. Four

men narrowly escaped death by

the falling of the walls.

WORK PROGRESSES ON GAINESVILLE & GULF

Two Large Forces Engaged in
Grading, and Another to Begin.

MANAGEMENT MEANS BUSINESS

Within a Reasonable Length of Time,

Everything Being Favorable, Through

Trains Will Be Operated Between

Jacksonville and Tampa.

Superintendent J. B. Cutler and

Chief Engineer E. B. Polk of the

Gainesville and Gulf railway have

returned from Crystal River and

other points south on the extension

of the road, where they had been for

the past few days.

Superintendent Cutler states that

work of grading on the extension

is progressing fairly well, but that

progress has been delayed to some

extent by excessive and continued

rains, which have been the hardest

known in that section for many

years.

Two large forces are engaged

grading now, and another will be

put to work on September 5. One

"gang" is working from Fairfield

south, while the other is coming

this way from Crystal River, and

the forces will join between the

two points. The third force, which

is being recruited, will comprise

a hundred or more men, and will

work southward from Crystal

River. It is understood that this

contract provides for more than

fifty miles of grading.

The present management of the

Gainesville and Gulf means business,

and within a reasonable length of

time it is expected that trains will

be running solid between Jacksonville

and Tampa, via Gainesville.

There are good things in store

which the Gainesville and Gulf

propose and will accomplish, but

for the present these cannot be

mentioned.

A PROMINENT VISITOR.

Hon. T. F. McGourin, United States

Marshal, Spent Wednesday Here.

Among the prominent visitors to

this city Wednesday was Hon. T. F.

McGourin of Pensacola, United States

Marshal of the Northern District of

Florida, who came here to consult

Hon. Henry S. Chubb, chairman of

the Florida Republican State Central

Committee, upon some matters of

vital importance to the Republican

organization.

Mr. McGourin is not only one of

the most prominent Republicans in

the State, but a most refined

gentleman as well. Dignified and

commanding in appearance, yet

possessed of a most affable and

generous disposition, he has

made friends everywhere, not only

among the people of his own party,

but Democrats as well.

Mr. McGourin expressed himself

as being well pleased with the

city: "Gainesville is growing more

rapidly in proportion to population

than any city I have visited in the

State," he said, "and I note that

the class of buildings being erected

are of that class any city in the

land could be proud of." He was

especially impressed with the

magnificence of the new buildings

of the University of Florida, which

he declared would be a credit to

any State in the Union. "Gaines-

ville is the very place for the

University, and I can see it now,"

he continued. "I have always

labored under the impression, and

now I am absolutely convinced that

no mistake was made in voting the

site of the University of Florida

in Gainesville." Mr. McGourin

was introduced to a number of

prominent citizens by Col. Chubb.

He left in the afternoon on his

return homeward.

Justice Colman's Court.

Wm. Cook was arraigned Wednes-

day in Justice Colman's court upon

a charge of using indecent and

obscene language upon the street.

After hearing the testimony of several

witnesses in the case the defendant

was adjudged guilty and sentenced

to pay a fine of \$2.50 and costs—

San Francisco, Cal., Aug. 29.—Mrs.

Mrs. Curtis is of Indian blood, ac-

cording to statements of her friends.

It was not known that she was the

wife of a negro, and exclusive society

is even yet slow to believe it.

While here, Mrs. Curtis did much

work among the negroes and seemed

to be on speaking acquaintance with

all the negroes in town.

When Mrs. Curtis left the city she

was suffering from injuries received

in an automobile accident and went

to Washington to recuperate. She is

to return soon and society is very

much puzzled. What her reception

will be, society doesn't know.

COUNTY ASSOCIATION IS AGAIN ORGANIZED

Enthusiastic Meeting Was Held
At Court House Monday.

WANT THE FIRST PREMIUM

Alachua County is going to send this year a fine exhibit, and wants to capture the cream of premiums. Association will get to work.

The Alachua County Fair Association met at the office of County Tax Assessor W. W. Colson, the secretary, at 4 o'clock Monday afternoon for the purpose of receiving the report of the manager of the Association for last year.

The meeting was well attended, and considerable enthusiasm was manifested. In the absence of the President, W. R. Thomas, the meeting was called to order by Dr. T. F. Thomas, who is a member of the board of directors of the Association.

After Dr. Thomas had called the meeting to order Jesse E. Burz, vice-president of the Florida State Fair Association, stated that the purpose of the meeting was to render a report of the last year's work to the county commissioners to reorganize the county association for the coming year's work.

The report of the manager, John W. Tench, was submitted, and a committee comprising Secretary Colson and H. S. Graves was appointed to audit and approve the same.

After a discussion as to the benefit and advantage an exhibit of Alachua county would be at the State Fair, a new organization was formed and the following officers elected for the coming year:

W. R. Thomas, president; L. C. Lynch, vice-president; H. E. Taylor, treasurer; W. W. Colson, secretary. Board of directors—C. C. Pedrick, J. A. Phifer, E. Lartigue, W. B. Taylor, J. F. McKinstry, Jr., H. H. McCreary, J. F. Bunch.

The meeting adjourned, after a long discussion of the probability of Alachua county in the coming State Fair making a fine show, and it was seen that the Association was determined to make a vigorous effort to capture the first premium for 1906.

A Fine Sermon.

Those who attended the First Presbyterian Church Sunday morning listened to a most interesting discourse by Rev. T. J. Nixon of the Methodist church, who filled the pulpit upon that occasion. Rev. Mr. Nixon spoke of the raising of children, and covered the subject with so much interest that the congregation felt deeply impressed.

TUMORS CONQUERED SERIOUS OPERATIONS AVOIDED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so slow that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, secure a bottle of Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—
"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation."

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. Fox, 7 Chestnut Street, Bradford, Pa.

THE ELKS' NEW HOME.

Sketches of Plans Now on Exhibition at Office of Dow & Morris.

The sketches of the plans for proposed alterations in the handsome Turner home, which has been purchased by Gainesville Lodge No. 999, B. P. O. E., and which will be transformed into a new and modern home and club house, are now on exhibition at the office of Dow & Morris, and are being admired by members of the order.

The sketches were made by Architect Edwards of Columbia, S. C., one of the most competent architects in the South, who was also the architect on the elegant new buildings of the University of Florida.

At the last meeting of the Elks, which was on Thursday night, these sketches were presented. It will be remembered that they were accepted, pending a more complete drawing, and the building committee was instructed to proceed in the matter of pushing the building to completion.

The plans are on exhibition with Dow & Morris, and all Elks are invited to call and inspect them.

JUSTICE COLMAN'S COURT.

Alex Smith, for Breaking and Entering, Went Under Heavy Fine.

Alex Smith, a negro who looks as though he might be strong enough to work without resorting to dishonest purposes to make a living, was arraigned in Justice Colman's court Monday upon a charge of breaking and entering.

The warrant for Smith's arrest was sworn out by J. C. Haile, who alleges that Smith broke a window and forcibly entered the house of a man living on his place, and took therefrom a gun and other articles.

After hearing the evidence in the case Smith went to jail in default of \$500 bond, and must face the next term of the circuit court.

The End of the World

THE CORONER'S JURY.

Verdict That Walter White Came to Death at Hands of Unknown Parties.

The coroner's jury in the case of Walter White, who was shot by unknown parties on the Haile plantation several days ago, and who died on Friday night as the result of his wounds, has rendered its report or verdict.

The jury was summoned immediately after the death of White, who viewed the remains. The case was continued until Monday, owing to the fact that it was impossible to get witnesses here before that time.

Monday six witnesses, negroes from in and about the Haile plantation, were examined, but no new developments were brought out.

The jury, after short deliberation, brought in a verdict that White came to his death from the result of gunshot wounds in the hands of parties unknown.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Funeral of An Old Resident.

The funeral of Prof. Alexander Hanay Affleck was held from Holy Trinity Church Sunday afternoon. Rev. Francis Craighill officiating. Prof. Affleck was born in Dunfries, Scotland, Nov. 18, 1818, and so was nearing the close of his eighty-eighth year. He was for some time an esteemed and highly respected citizen of this community, but about three years ago removed to High Springs, and more recently to Fort White, at which place he died. He is survived by his aged wife, two daughters, Mrs. L. C. Ellis of Fort White and Miss Mary Affleck of Ocala, and by one sister, Mrs. Mary H. Moulton of Shelbyville, Ill. He leaves also, especially in Georgia, where he lived during the more active years of his life, a large circle of friends, who remember him as a talented musician, a brave and distinguished Confederate soldier and a noble Christian gentleman.

Letter to W. L. Gore,
Gainesville, Fla.

Dear Sir: We shall feel obliged if you write us how you come-out on your first few jobs Devco, as to gallons expected and used.

Take Job A. You made your price, expected to use 25 gallons Devco, and used 15. Job B. You expected to use 15 and used 10. And tell us what paint you had used before. Of course, you judge Devco by what you have used before.

Here's how a few came out:
M. A. Thomas, painter, Lynchburg, Va., writes: My first job with Devco, estimated 37 gallons; it took 25. Since then I have used nothing else.

C. E. Edwards, Raleigh, N. C., had used 30 gallons paste paint on his house, and bought 30 gallons Devco; A. E. Glenn, his painter, said it wouldn't be enough. Had 16 gallons left.

Mayor W. W. Carroll, Monticello, Florida, writes: Painter estimated 35 gallons for my house; took 20 gallons Devco.

Gilmore & Davis Co., contractors and painters, Tallahassee, Florida, says 2 gallons Devco spreads as far as 3 of any other paint they know, and covers better.

S. A. Ballard, painter, Sanford, Florida, estimated 50 gallons for Odd Fellows and Masonic Halls; they took 29 Devco.

Jones & Rogers, Merkel, Texas, estimated 10 gallons Devco for Mr. Pratt's house and bought 5 gallons for first coat; it painted two coats.

Erb-Springall Co., San Antonio, Texas, painted two houses same size for D. J. Woodward, one lead-and-oil, the other Devco. Devco cost \$12 less for paint and labor.

Tom Massey's painter, Walnut Springs, Texas, estimated for his house 10 gallons Devco; he had 4 left.

You see how it goes. Even the best painter can't guess little enough at first.

Yours truly,
F. W. Devco & Co.,
New York.

SHOOTING AFFRAY
NEAR RALEIGHDunlap Phinney Assaulted
B. Lowman With a Pistol

GREAT DIFFERENCE IN AGES

Phinney is a Man Above Fifty While
Lowman is Young, Having Just Reached
the Legal Voting Age—Phinney
Went Home and Gave Up

Information reached this city today of a shooting affray near Raleigh Saturday afternoon, in which B. Lowman, son of B. B. Lowman, a prominent farmer and citizen of that section, was shot and seriously wounded by Dunlap Phinney, also a farmer. It is understood that the two men have not been on good terms for some time, but their differences were not considered of a very grave nature. Phinney and Lowman met on Saturday afternoon, it is said, when Phinney drew a pistol and began to pump lead in the direction of Lowman. Three bullets took effect, and Lowman's condition is said by his physician to be serious.

The particulars are meagre, but it is understood that Phinney was very much unconcerned in the tragedy and went home, after which he was arrested without resistance.

Phinney is a man of advanced age, being about fifty-four. He has a large family. Lowman is a young man, scarcely more than twenty-one.

The tragedy has caused general regret in the vicinity of Raleigh, as all parties are well known and popular.

The ladies of the Cemetery Association desire to publicly thank the "Fats" and "Leans" for their work in the game of Friday, and also for the generous support of the public. The receipts for this game aggregated net \$37.25, which will go a long way in the matter of keeping the cemetery in order, and the ladies of the Association are grateful to both the players and those who purchased tickets.

Cured My Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

AWFUL PSORIASIS
35 YEARS

Terrific Scaly Humor in Patches
All Over the Body—Skin Cracked
and Bleeding—Itching Unbearable—Cured by Cuticura in Thirty
Days at Cost of \$4.75.

ANOTHER WONDERFUL
CURE BY CUTICURA

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Soap, six boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent. I bathed with the Soap, applied the Ointment once a day, and took the Resolvent as directed. In thirty days I was completely cured, and I think permanently, as it was about five years ago."

"The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable."

"To sum it all up, I would not go through such another ordeal of affliction for thirty-five years for the State of Kansas. (signed) W. M. Chidester, Hutchinson, Kan., April 20, 1905."

Cuticura Soap, Ointment, and Pills, are sold throughout the world. Better Drug & Chem. Co., Sole Props., Boston, Mass. Free, "How to Cure Torturing Humors."

FOR TOTTING A PISTOL.

Robert Gamble Insisted on Carrying a Gun and Suffered Consequences.

Deputy Sheriff J. A. Beach of Trenton arrived in the city Monday. He had in custody Robert Gamble, a negro, who insisted upon carrying a pistol, which he realized was against the law, and was subsequently arrested. The pistol was found upon his person, and he was arraigned in Justice Drummond's court and sentenced to pay a fine of \$100 and costs or spend three months in jail.

Not having the "wherewith" with which to pay his fine, Robert will have a job breaking rock in the phosphate mines for the next three months—but he gets \$33.33 per month and board, which is a tolerably fair job these days.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Monteocha Has a Paper.

D. V. Maines, a progressive farmer and well-known citizen of Monteocha, was trading in the city yesterday.

Mr. Maines states that Monteocha has now the distinction of being a "publishing town," as his nephew, Schell Maines, had begun the publication of a small four-page weekly, which he has styled The Hustler. The first issue was out several days ago. Schell is a bright young fellow, and will no doubt make a big success of his efforts. His ambition in the journalistic world will be appreciated and supported by those who know him. He is only fourteen years of age.

In Self Defence.

Major Hamm, editor and manager of The Constitutionalist, Eminence, Ky., when he was severely attacked four years ago by pills, bought a box of Bucklen's Arnica Salve, of which he says: "It cured me in ten days and no trouble since." Quickest healer of burns, sores, cuts and wounds. He at all drug stores.

Evergreen Cemetery.

The funeral of Joel S. Davison, who expired suddenly at the mill of John F. Lyden, Fathanka, Friday, was held at the residence of Undersheriff Robert McChesney Monday afternoon at 4 o'clock, the interment being in Evergreen cemetery.

The services, which were held at the grave were conducted by Rev. T. J. Nixon of Kavanaugh Methodist Church, the deceased being a member of that church. He was a so prominent Odd Fellow, and the pallbearers were Odd Fellows as follows: M. B. Saunders, E. Baird, L. C. Lyden, J. W. Brown, J. M. Rivers and W. E. Dow.

There were in attendance at the funeral Mr. and Mrs. Lynch, Miss Davison, Mrs. J. S. Davison, all relatives of the deceased, and to whom the sympathy of the community is extended.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENNEY & Co., Toledo, O.

Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

Mr. Pendarvis Married.

Mr. G. W. Pendarvis, the popular and accommodating operator at the office of the Western Union Telegraph Company, has become a Benedict, as on the evening of Monday, the 29th inst., at Oxford, Ohio, he was married to Miss Josie Little, an accomplished young lady of that place.

Mr. Pendarvis, who has been employed here for the past month, did not even hint to his most intimate friends his intentions when he left here for a short vacation, but they were suspicious, and the information of his marriage was really not in the nature of a surprise to them.

Mr. and Mrs. Pendarvis are pleasantly located on West Main street. 8. Friends wish them a long a happy married life, which will no doubt be the case.

Why Fret and Worry

When your child has a severe cold? You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for colds, coughs, whooping cough and bronchitis. Mrs. Hall, of Sioux Falls, S. Delightful Birthday Party.

There was a delightful birthday party at the home of Mr. and Mrs. C. E. DeLand, 800 East Church street, Saturday afternoon, the occasion being the celebration of the eighth birthday of little Miss Bernice DeLand, and the fifth birthday of Master Harold DeLand.

A number of friends of the little folks, by invitation, attended the function. There were refreshments and games, and altogether the afternoon was passed in a most enjoyable manner, and the guests departed wishing their young friends many happy returns of the occasion.

There is at least one thing to be admired about Governor Broward—he stands up on the same platform that he got in on—drainage of the Everglades.

A piece of ground five inches wide was sold in New York recently for \$2,000. The purchaser probably intends to put a thirty-five story building on it.

Senator Frank Adams says he would not have the Governorship of Florida if it were offered him on a silver platter. How about United States Senator, Frank?

A Tennessee paper tells of an ice man who was shot by mistake for a robber. The Jacksonville ice consumers would like for the Tennessee paper to explain how to tell the difference.

As between Jerome and Hearst it is no wonder that Tammany is found on the side of the latter for governor of New York. Jerome is a political ingrate, with considerable of the racial mixed with it, while Hearst practices what he preaches in politics.

A QUESTION THE GOVERNOR DID NOT ANSWER.

In the notable debate on the Everglades drainage question between Governor Broward and Hon. Jno. S. Beard heard in this city last Monday night, it is generally conceded that the Governor had the best of it—or he at least carried a very large majority of the crowd with him—and that we suppose was the object of the debate.

There is one question, however—and it is a very important one—which Governor Broward failed to answer. The proposition was put up to him by Mr. Beard that, while the title to those Everglades lands is in dispute, while it is now a matter of litigation in the courts, it would be unwise to spend the public money in draining them until their ownership is absolutely settled.

This, as we said, is a very important point and, in fact, the main point in the whole drainage proposition. No private individual would improve a piece of property unless he felt reasonably sure that he had or would secure a good title to it, and the State in this matter should be guided by the same business principle which a business man would follow in a similar case where his own personal business interests were affected.

So far as we could observe, the nearest the Governor came to answering the question was his contention that, assuming his own position in reference to the State's title to the lands to be the correct one, the Supreme Court would decide in the State's favor. This answer is hardly a satisfactory one and does not really answer the question.

We should like very much to have the Governor make a plain straightforward statement of his position on this phase of the proposition. It is, in the Journal's opinion, the one strong card which the opposition to the drainage scheme have to play, and thus far we have not seen a satisfactory answer to it.

We do not say that this point alone should determine the whole question of supporting or opposing the drainage amendment, but we do say that it is a question that will cut a large figure in the case and it ought to be answered.—Pensacola Journal.

THE STATE FAIR.

Tampa, Fla., Aug. 27.—To date, although the work has been under way little more than a month, a total of seventeen counties have been enrolled in the State Fair movement, these counties having appointed commissioners to collect products for exhibition and made appropriations to enable the commissioners to collect such products. Assurances have been received that at least ten other counties will enter the movement at the next regular meeting of the county commissioners.

With these additions there will be represented at the Fair a much larger number of counties than ever before participated in a Southern State Fair, and a very pleasing feature is that these counties represent every section of the State, thereby guaranteeing an ever greater diversity of products than were represented at the Fair last year. Counties that have never before interested themselves in Florida Fairs, owing to the success achieved last year, have entered the movement with a most commendable degree of enthusiasm that will result to their benefit and that of the State at large.

Since the work of advertising Florida and the coming State Fair at Tampa began a little more than a month ago between 8,000 and 10,000 letters have been sent to prospective settlers in every section of the United States, these letters having been sent out by the Fair Association and the industrial departments of the great railway systems interested. President T. J. L. Brown of the Fair Association has received between 3,000 and 5,000 replies from people who are desirous of attending the Fair and learning of the resources of Florida, and it is evident that the attendance of home-seekers from other States will be even larger than that of last year. During the coming week the Fair Association will send to the States of the Northwest and East a total of 20,000 attractive advertising pamphlets, calling attention to the Fair and advertising every section of Florida. The railroads are also sending out thousands of attractive advertising pamphlets and will send special agents to the Northwest to call attention to the extremely low rates offered in honor of the Fair and bring settlers to Florida. Every man and woman in Florida who has a friend in other States should write them and

UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA.

Ex-Senator M. C. Butler.

Dyspepsia Is Often Caused By Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy For Dyspepsia.

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. In order to cure catarrh of the stomach the catarrh must be eradicated. Only an internal catarrh remedy, such as Peruna, is available. Peruna exactly meets the indications.

tell them of Florida's superb advantages.

President Brown has been campaigning through Florida for the last two weeks in the interest of the coming State Fair, to be held at Tampa, November 14th to 29th, and has been enthusiastically received in every county and city visited. Every indication is that there will be a much larger attendance at the Fair than at that of last year, and extensive preparations are being made to accommodate the crowds. Those attending will be surprised at the improvement in the Fair, and particularly will this be the case with the amusement features. Through the formation of the Southern Fair Circuit, composed of seven States, amusements of a character never before seen in the South will be brought to Tampa. A special committee of the Circuit is now visiting New York and Chicago for the purpose of securing attractions. Preparations are being made to accommodate 200 of the fastest running horses in the country at the race-track on the Fair grounds.

The Secretary of the Treasury is now in the market purchasing silver for coins of the United States for the first time since the repeal of the purchase provision of the Sherman law in 1893, nearly thirteen years ago. This of course does not mean that he has resumed or is going to resume the coinage of silver dollars. He has no authority to do that and is glad he is not required to do it. It means only that silver is needed for additional fractional silver coin.

A naughty exchange says that there is scarcely anything that a woman can't do with a hair pin. She uses it to pick her teeth, button her shoes, clean her finger nails, punch bed bugs out of cracks, fasten up stray bangs, clean her children's ears, scratch her head, pick her toe nails, clean out her husband's pipe, run into cakes to see if they are done, and many other things that poor deluded men know nothing about.

Appointments on the Bryan reception committee seem to have been had for the asking.

JAMESTOWN EXPOSITION.

Determined to have Florida represented in a creditable manner at the Great Jamestown Exposition in 1907, and at no cost to the counties of Florida, Colonel T. J. L. Brown, president of the State Fair Association and Chief Commissioner to the Jamestown Exposition by appointment of Governor Broward, has decided upon and will carry out a most excellent and commendable plan.

Colonel Brown intends that the various counties' exhibits at the coming State Fair shall be taken to Norfolk directly after the fair closes, and at no expense to the counties participating. In Norfolk he has entered into a contract with one of the greatest storage warehouses in the country to care for the products, particularly those of a perishable nature, until the Exposition, which will be attended by hundreds of thousands of people from all sections of the country and civilized world, opens. This will be done at the expense of the Exposition Commission, and in order to secure creditable representation it is the duty of the commissioners of every county in Florida to make preparations for having their county represented at the fair, appointing a commissioner to collect exhibits, and making such an appropriation as is necessary to defray the actual expenses of exhibiting at the fair. This should be done at the September meeting. In this way the counties will be represented without cost at the Great Jamestown Exposition, and the State will be benefited incalculably.

Is not the happiest man or woman the most successful in the highest sense of the word? Industry and temperance and courage will bring to any man the comfort of life. Add to this a kind heart and a generous, unselfish consideration toward all men, and life is complete.

Now and then, says The Tampa Times, we see notes about survivors of Andersonville prison during the war. They all seem to be men whose constitutions and nervous systems were ruined by their inopportune experience there. But as they have survived that experience by more than forty years it might be made by very little twisting to appear that the prison was something of a health resort. It is not in good taste to speak jocularly of such an incident as Andersonville, but it may do no harm to gravely state that about as many of its inmates are still alive, in proportion to numbers, as of the soldiers on either side who never resided within its precincts.

SOUTH GAINESVILLE WANTS MORE LIGHT

Citizens of that Section Will Soon
Present Petition to Council.

THE STREETS ARE DARK

And On Nights When There is No
Moon Pedestrians Find It Difficult to
Make Their Way Without Stumbling
Over Obstacles.

The citizens of South Gainesville are apparently not content with the lighting service they are now receiving, and at the next meeting of the City Council will probably petition the council for more light.

"We are getting tired of running around and falling over obstructions in the dark," remarked one citizen, in referring to the inadequate system. "We have been 'roped in' to the city limits, we are paying as much taxes as anybody else in proportion, and we are going to insist on a proportionate advantage when it comes to lights and water."

The section of South Gainesville sought to be relieved is said to be very dark on nights when there is no moon, and those residents in the immediate vicinity have determined, if possible, to secure the necessary illumination.

DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine for women, all the ingredients of which are printed upon its wrapper and have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is advised. Write to Dr. R. V. Pierce, Buffalo, N. Y., for a free booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicines are made, and don't forget that no other medicines put up for sale through drug stores for domestic use can show any such professional endorsement. This, of itself, is of far more weight and importance than any amount of non-professional testimonials.

The "Favorite Prescription" cures all women's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, bearing-down distress, tenderness and dragging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal pelvic drains and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted, free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questionings and personal "examinations" are avoided.

The People's Common Sense Medical Adviser contains some very interesting and valuable chapters on the diseases peculiar to women. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of mailing only, or 21 cents for a copy in flexible paper covers, or 31 cents for a cloth-bound copy. Address Dr. R. V. Pierce, as above.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. One a laxative, two or three cathartic.

Hon. Henry S. Chubb, receiver of the United States land office, has returned from Tryon, North Carolina, where he was called a few days ago on account of the illness of his daughter, Miss Kathleen, who has been suffering with malarial fever.

Mrs. Chubb and family, who reside at Winter Park, have been spending the summer at Tryon, and, with the exception of the misfortune just related, have been enjoying unusually fine health. Col. Chubb left the patient greatly improved, however, which will be gratifying information to his numerous friends throughout Florida.

Col. Chubb stated that the mountain air of North Carolina is delightful at this season. The country is literally thronged with people from every section of the country, and he was delighted to meet several of his old Florida friends there.

FLORIDA AT SEA GIRT.

Florida Rifle Team Left Tuesday to
Compete in National Shoot.

Lieutenant J. W. Blanding of the Gainesville Guards, who has been honored for the third time in being selected as a member of the crack team of the Florida State Troops to compete in the National shoot, writes from St. Augustine under date of Monday, 27th inst., and requests that the address of his paper be changed to Sea Girt, N. J., where the contest will be held.

The team comprises seventeen members. In concluding his letter, Lieutenant Blanding says: "We expect to leave here tomorrow morning on a special car for Sea Girt, and will probably be there for ten days or two weeks. Kindest regards to all my friends at home."

The Florida Rifle Team won high honors at Sea Girt last year, and it is expected naturally that they will do the same thing at this shoot, as the team is virtually the same as last year.

The Yield in Santa Fe Section
Will Be a Long-Ways Short.

FARM LABOR IS SCARCE

And As a Result the Farmers Will Lose
Heavily on Cattle Feed, As a Large
Acreage of Velvet Beans Was Plant-
ed—Other Notes of Interest.

Santa Fe, Aug. 28.—The public school here is progressing finely under the able management of Prof. J. H. Durrance, assisted by Miss Vera Atkins. Prof. Durrance is now engaged in teaching his second term here, and is giving entire satisfaction. He is an exemplary young man, and one that is considered by those who know him as one of the best instructors for rural schools in the county.

This section is having too much rain again. The cotton crop is greatly damaged—some say fifty, and other sixty per cent. The corn crop here is under an average owing to too much rain.

The annual communion meeting of the Sowanee River Primitive Baptist Association will meet with New Hope Church on next Friday, Saturday and Sunday. A large crowd is expected.

Mrs. W. H. Colson, who has been sick with fever, was reported some better yesterday.

John Holder of Citronelle was visiting relatives and friends here last week.

Miss Julia Duke, the charming daughter of Hon. T. A. Duke, was visiting relatives at Bland last week.

Master Lucius Rivers of the Central City is visiting his grandparents here this week.

Grandpapa Futch is visiting in Lake Butler today.

Mrs. W. M. Blitch and daughter, Miss Alma, are visiting relatives at Haynesworth today.

The farmers are badly put out over the prospects for cattle feed this fall and winter. As labor was so scarce they put in an unusually large crop of velvet beans, and the prospects were good until a few days ago; but alas, the caterpillars are here and the prospect for a crop is gloomy—in fact, hundreds of acres of beans that but a few days ago were growing fine are today minus leaves.

Governor Broward has appointed W. M. Blitch as a delegate at large for Alachua county to the Farmers' National Congress, which convenes at Rock Island, Illinois, on October 8th to 20th, 1906.

Santa Fe river is again rising. It is feared that if the heavy rains continue that the swamp will again overflow.

Herman Harrell, the son of J. W. Harrell of Santa Fe who has been quite sick in Tampa with typhoid fever, is reported convalescent. His father is with him and will move him home this week if no relapse occurs.

MISS M'CREARY RETURNS.

After a Delightful Trip Abroad She Has
Returned Home Again.

After an absence covering a period of over two months, Miss Irene McCreary reached home Tuesday from a European trip which embraced a visit to the principal points of interest in Germany, Switzerland, Italy and England, including in her itinerary on the return points in Canada.

Miss McCreary, in company with Miss Clem Hampton and others, sailed from Baltimore direct to Bremen, Germany. After a short time spent there the party proceeded to Berlin and other German cities. From Germany she went to Italy, visiting Rome, Naples, Venice and Florence. The party also visited Interlaken, and other points of interest in Switzerland. Near Interlaken she ascended the famous Jungfrau mountain, one of the highest in all Europe, where she enjoyed the novelty of a "snow-ball fight" with her companions in July.

From Switzerland Miss McCreary and her party journeyed to Paris, from which city they proceeded to London. She visited Stratford-on-the-Avon, the historic home of Shakespeare, and was deeply interested in the place.

From Liverpool a steamer was taken for Quebec, and a trip was enjoyed down the St. Lawrence to Montreal. Miss McCreary left Miss Hampton in Montreal and proceeded to New York, where she spent a short time before returning home.

Friends of Miss McCreary are delighted to welcome her again, and delighted to see her looking so well after this extended voyage.

A PAINFUL ACCIDENT.

Mr. Hismith Fell Through Floor and
Sustained a Broken Arm.

Mr. Hismith, who resides in North Gainesville, was the victim of a peculiar and painful accident a day or two ago which is likely to incapacitate him for duty for some time.

Mr. Hismith was walking on the upper floor of the veranda of the house he occupies, when the floor, which was decayed, suddenly gave way, and he was precipitated several feet to the floor below. In the fall he sustained a broken arm, and was otherwise considerably bruised.

A physician was summoned and the wound attended to, and at this time the patient is resting easily, although it will be sometime before he will be restored to his normal condition.

Mr. Hismith's friends sympathize with him deeply in this misfortune.

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. ROBERT OLIN CHAPPLE.

Former Gainesville Pitcher Will Finish
Season in National League.

Robert Olin Chapple, the Georgia boy who for two seasons was one of the most popular members of the Jacksonville baseball team, and who this season has made a record with the Scranton club, in the New York State League, will finish the present season in the National League, his release having been purchased from the Scranton club by Manager Ned Hanlon of the Cincinnati Reds.

Chapple's thousands of friends—he has thousands—throughout the league will no doubt read of his advancement with pleasure.

When the South Atlantic League was formed, Robert Chapple was one of the first men signed to play with the local team. He pitched splendid ball during the first season and was retained for the next season. After finishing last season, wherein he pitched good ball, he was drafted by Manager Ashenback of the Scranton team, and he has been with that team in the fast New York State League during the present season.

Chapple has indeed made a great record with the Scranton team. He has practically won the pennant for the genial "Ash."

Out of thirty games pitched Chapple has won twenty-five, a record which is hard to beat.

The Philadelphia Record is the authority for the Cincinnati deal, and it states that the Cincinnati management received \$5,000 for the Southern twirler. It is not thought that "Chap" will report to the Reds until after the close of the New York State League season, which ends about the middle of September.

READ THIS.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. DANIEL.
